

Welcome Letter

Clarecare Advocacy Service

Hi,

We are parents who have both used the Clarecare Advocacy service and we wanted to let you know that you are not alone in this.

Our experience of using the Advocacy Service is:

It offers guidance and support.

You are not alone dealing with Tusla/court/other services and the overall situation.

We've been involved with the service over ten years and both found great support and benefit.

We've been supported with other difficulties in life by the service. The service provides a safe space to talk things through.

We wish you well going forward and would encourage you to use this service.

Patrick & Natalie
